About This Game

From the co-creator of Rick and Morty comes Trover Saves the Universe.

Your dogs have been dognapped by a beaked lunatic named Glorkon who stuffed them into his eye holes and is using their life essence to destroy the universe. You're partnered with Trover, a little purple eye-hole monster who isn't a huge fan of working or being put in the position of having to save the universe. He's also not that big a fan of you quite frankly, and neither am I. (Jk, you're great)

Only you and Trover can save everything in this bizarre comedy adventure, created by Justin Roiland!

- **A comedy adventure** filled with combat, platforming, puzzles, and morally questionable choices. See how the best intentions can go horribly awry.
- **You control Trover's movements**, but not his mouth. He's got a lot to say about what's going on in the game.
- **Travel the cosmos** to experience a variety of weird alien planets and bizarre characters with big personalities.

-
- **Upgrade Trover AND YOURSELF** with new abilities to (hopefully) defeat Glorkon while evading awkward situations.
 - **You'll be immersed in weirdness**, no matter which display you use -- play on TV, monitor or VR headset displays.
